Planned Program Benefits

Our program and activities address the needs of low income Native families by offering safe and affordable housing through our Tenant Based Rental Assistance (TBRA) Program, Homelessness Prevention, Emergency Housing (Shelter Stays), Rapid Re-Housing, housing searches, financial management, landlord/tenant education and other supportive services that will help Native families obtain skills that will support their ability to retain long term permanent housing. Through our TBRA program, forty (40) Native families will be provided with rental assistance and fifty (50) will be supported through our Homelessness Prevention, Rapid Re-Housing and/or Emergency Housing assistance program. In 2022, Samish Indian Nation will purchase a building, which will be used as a shelter for homeless citizens. The goal is to ensure that our homeless and/or recently evicted citizens have a safe and stable place to live. Thereafter, they can work with our staff to develop goals and find treatment options, if needed, while our Landlord Engagement and Outreach Coordinator works with them to find housing. We will introduce a new program ¿Community Awareness Health and Safety¿, designed to provide home safety demonstrations, home ownership education, home maintenance skills, educational training, and financial literature to residents that will be housed at our Xwch¿angteng property, located at 2109 34th Street, Anacortes, Washington 98221. This program will also be available for families participating in our TBRA program, Homelessness Prevention, Rapid-Rehousing and Emergency Shelter programs. We anticipate starting this service in October of 2022. We are prepared to offer these services virtually and in person, using social distancing recommendations should we still be in a national pandemic. Activities offered will include assistance preparing a housing search plan and list of local landlords. For those clients that demonstrate that they need more assistance and support to find housing, the supportive service will be provided to meet the level of need. Evaluate the household¿s current resources, problem-solving abilities, and financial life skills, then provide the appropriate amount of assistance to ensure the greatest chance of successful transition to independence after program exit. When assistance ends, participants should have developed a natural support system, if possible, that will allow them to address obstacles that might later arise with employment, childcare, transportation, or financial management. Participants will also need to know how to navigate multiple systems, so ¿other housing services¿ should consist of arranging, coordinating, and monitoring the delivery of individualized services to facilitate housing stability. Rather than simply making referrals to programs, there will be times that we will need to walk participants through how to access services on their own and ensure that participants have the skills to access services in the future independently. This is extremely important now due to COVID-19, for some of our clients are not sure how to access these services remotely. Connections to Mainstream Resources ¿ that are appropriate to addressing barriers to housing retention. Our clients reside in scattered site-housing throughout ten (10) Counties in Western Washington ¿ Clallam, Island, Jefferson, King, Kitsap, Pierce, San Juan, Skagit, Snohomish and Whatcom. Many of our housing clients

	live in rural areas and do not have access to public transportation. Because of the COVID-19 Pandemic, our housing staff will use virtual techniques to make home visits, to review housing stability plans, plan for clients to get transportation to medical appointments. Staff members will work with clients to navigate systems such as work source and other necessary appointments to ensure families will become self-sufficient.

Geographic Distribution	<p>Assistance is distributed in a variety of ways for us to meet the needs and diversity of our families. We send information to our families through mailings on a quarterly basis. Our newsletter is mailed to all Samish households regardless of where they live, and our webpage is available to anyone with access to the internet. For our Native Elders, developing community relationships with agencies that have Tribal Outreach and Assistance has been and continues to be critical in providing information and assistance to this population. This one on one approach has been effective in helping our elders understand the services we provide and how such services can be effective for them. We provide services in ten (10) counties throughout Western Washington - Clallam, Island, King, Kitsap, Pierce, San Juan, Skagit, Snohomish, and Whatcom. We have developed partnerships within our 10-county service area, explaining to other providers who we serve and how to contact us for information regarding the various housing services offered. We are also a part of Skagit, Island and Whatcom Counties Coordinated Entry System- a system designed for all populations that aligns the Single Adult, Family, and Youth into a seamless, collaborative, county-wide platform for housing and service delivery to homeless households. The main objectives of this system are to: Reduce the length of time a family is homeless and permanently house them as quickly as possible, using Rapid Re-housing and linkages to supportive services. Build upon existing community-based infrastructures to serve homeless families, leverage resources, and provide more targeted and cost-effective interventions. Because of the COVID-19 Pandemic, and our lack of ability to see our clients face to face, it is our goal in 2022 to continue to be ambassadors in using technology to work with our families to help them reach their housing goals. We also plan on becoming a part of the Homelessness Management Information System (HMIS) in San Juan County. This will be another resource in helping us identify families in those areas that could benefit from our program. We will build on our partnership with Volunteers of America Western Washington (VOAWW) to provide services to our clients that have a mental and physical disability through their Disability Services Program, and to provide longer term rental assistance to those households faced with evictions.</p>
